

With the help of this map you can take a walk on the Acropolis today. With your imagination, you can bring to life the ancient Sanctuary of the age of Pericles and get to know its buildings, as they were 2500 years ago!

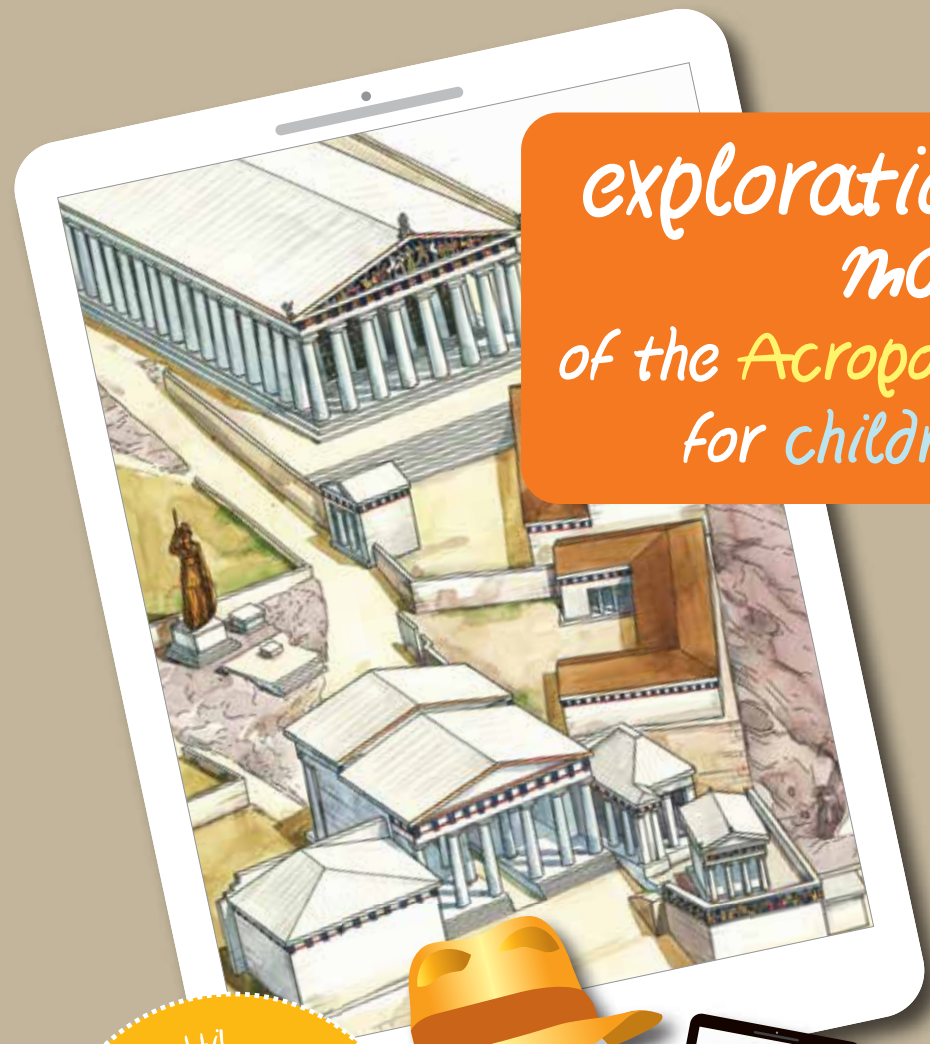

Restoration interventions are being carried out on the monuments today by a special service of the Ministry of Culture, the Acropolis Restoration Service.

If you want to take a virtual tour of the Acropolis you can visit:
<https://www.acropolisvirtualtour.gr/>
You can find more educational material at the Acropolis Educational Resources Repository.
